

Your Partnership Deed

Having a partnership deed in place will protect the stability of your business and can save you time and money. Every GP practice needs to have a current and effective partnership deed in place, especially in light of the unprecedented challenges faced by the NHS and the adaption and resilience required from GP practices. Keeping “your house in order” will ensure that this aspect of your practice and business is under control and legally documented.

To help you get started, Capsticks is offering a discounted fee on our bespoke service for a limited period of time. Our team of experts will prepare a new deed tailored to your particular situation so it meets your day-to-day business requirements.

The first draft of your deed is available at £1,300 plus VAT, which is a saving of 25% off our usual fee. We will take as much time as needed to understand your requirements, to prepare a comprehensive first draft.

As each deed is distinct to the individual partnership, we once again will not place a limit on our time after the first draft. The amount of advice you need to finalise the deed is therefore entirely within your control. Our fees will be based on the time spent, and you will have complete transparency throughout the process about any additional costs you may incur after the first draft.

Please note that this offer will only apply to instructions received between 10 January 2023 and 28 February 2023.
