

# Governance support service

We understand that registered providers (RPs) are operating in a complex regulatory environment and it can be difficult to find the time and resource necessary to keep up with constantly evolving rules and practice. That's why we have developed our governance support service, to provide you with the expert governance support needed to navigate these challenging times.

## BENEFITS TO YOU

### Peace of mind

You will have instant access to a suite of documents that you know are continually kept up-to-date with current law and expert guidance by us.

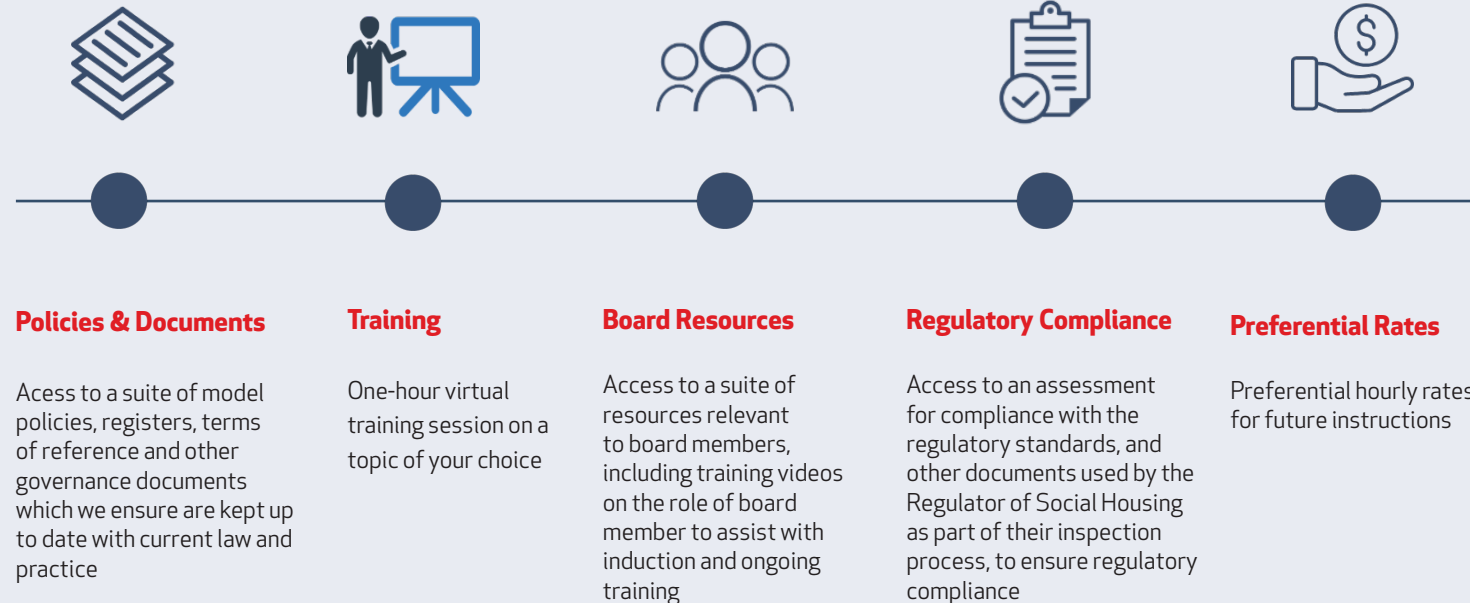

### Cost savings certainty

For a fixed fee you will have access to a suite of governance documents, monthly legal updates, a virtual training session and preferential hourly rates for future instructions.

### Improved governance

By allowing us to take responsibility for ensuring that your governance documents are up to date with current law and guidance, you can free up your teams to focus on the business of an RP.

## WHAT'S INCLUDED

### Regulatory Compliance

We provide you with the tools and assurance you need to understand how the Regulator of Social Housing approaches regulatory inspections and how to assess your own compliance with the regulatory standards.

### Board effectiveness

Our board member resources and training videos help to support an effective induction, and ongoing support, of board members, enabling them to properly understand their role and positively contribute to your RP.
